Example 11 Find the order of rotation for the following figures.

i)  ii)  iii)  iv) 

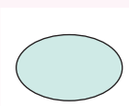

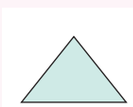

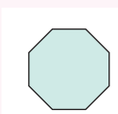

Solution

Figures	i) 	ii) 	iii) 	iv) 
Order of rotation	4	5	2	5

Example 12 Find the order of rotation for the following shapes.

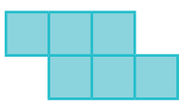

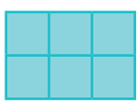

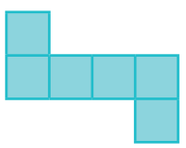

i)  ii)  iii)  iv)  v) 

Solution

Shapes	i) 	ii) 	iii) 	iv) 	v) 
Order of rotation	2	2	3	8	2

Example 13 Join six identical squares so that atleast one side of a square fits exactly with any other square and have rotational symmetry (any three ways).

Solution

The opening in the given spanner has six sides, so it is a hexagon. The spanner has rotational symmetry of order 6 and fits a hexagonal bolt in any of six positions.

4.5 Translational Symmetry
