

Discuss the following situations in groups

Situation 1

Suppose you need to arrange 100 books of same size in a shelf. The shelf has 10 rows and each row can accommodate 10 books. Besides, each book has an ID number written on it. How will you arrange the books based on their ID numbers, the smallest number should be on the left top row and the greatest ID number must on the right bottom row.

Discuss the following questions

i) Are there different ways to arrange the books?

ii) How do you know that one method is better than the other?

iii) If two persons together do the arrangement, how will you divide the work between them?

iv) If the books do not have any numbers written on them, how will you arrange them?

v) Is arranging them by number better than arranging them by size? why?
